

Open Data Intern

Project Title	Open Data Intern
Project Summary	Open Data Intern working with CKAN and DKAN and coding API's for Drupal and Python.
Country	United States
Country/Region of Focus	United States

Project Description

The U.S. Department of Veterans Affairs is looking for persons with interest and experience in open data and working knowledge of inventory.data.gov, CKAN and DKAN to help the VA's Open Data project continue to grow and refine its Enterprise Data Inventory. We are seeking applicants with experience with coding API's for Drupal and Python. Additionally, experience with GIS/spatial data would be considered valuable.

The VA Open Data team is also seeking applicants interested in the creation of new data stories and new assets in the VA's enterprise data inventory. This applicant will assist Open Data team as they work with VA staff as new assets are discovered and created.
